**Pan Am
Rehabilitation
Symposium**

**Year 4
The Foot &
Ankle**

**November 17 & 18, 2018
8:00 — 4:00 pm**

**Pan Am Clinic
Winnipeg, MB**

presented by
**Pan Am Clinic Foundation
&
Pan Am Rehabilitation Services**

This two day course for physiotherapists is designed to enhance the clinician's understanding of foot and ankle anatomy, pathology, conservative treatment, surgical options and post-operative management. Learning opportunities will include a guided cadaver walk-through surgery, participation in a fresh frozen cadaver dissection lab, as well as a variety of lectures and practical sessions.

Objectives

- Review and develop a thorough understanding of foot and ankle anatomy.
- Review and understand the evidence in managing patients with a variety of overuse conditions involving the ankle, rear foot, and forefoot.
- Rationalize exercise prescription, and improve your manual therapy skills for the foot and ankle.
- Develop an understanding of foot and ankle biomechanics in the prescription of active footwear.

Interactive Learning

- Fresh frozen cadaver dissection lab: Anatomy review
- Cadaveric foot and ankle surgeries
- Multidisciplinary panel discussion

Presentations

- Differential diagnosis and management of fore foot pain
- Primary care assessment and management of foot and ankle injuries
- Pearls for overuse conditions of the foot and ankle
- Foot wear and over the counter prescription options for physiotherapists

Practical Sessions

- Manual therapy techniques for the foot and ankle
- Intrinsic foot muscle strengthening
- Taping options for foot and ankle pain
