Year 3

**Wrist
&
Hand**

November 18-19, 2017

**Pan Am Clinic
Winnipeg, MB**

presented by
**Pan Am Clinic Foundation
&
Foundation Rehabilitation
Services**

This **one and a half day course** for physiotherapists is designed to enhance the clinician's understanding of wrist and hand anatomy, pathology, conservative treatment, surgical options and post-operative management. Learning opportunities will include a guided cadaver walk-through surgery, participation in a fresh frozen cadaver prosection lab, as well as a variety of lectures and practical sessions.

Objectives

- Review and develop a thorough understanding of wrist and hand anatomy.
- Review and understand the evidence in managing patients with tendinopathies, osteoarthritis and fractures
- Rationalize exercise progressions for various pathologies and post-operative scenarios
- Review use of acute and post-operative splinting and bracing.

Interactive Learning

- Fresh frozen cadaver dissection/prosection lab
- Cadaveric wrist/hand surgery
- Panel discussion

Presentations

- Assessment of the traumatic hand injury
- Evidence-based treatment of lateral epicondylitis
- CMC injuries
- Digital injuries
- Management of distal radial fractures

Practical Sessions

- Wrist assessment and treatment pearls
- Manual therapy
